- (2) *The Rule 3 of the Electricity Rules, 2005 stipulates the following:*

“3. Requirements of Captive Generating Plant.—*(1) No power plant shall qualify as a "captive generating plant" under section 9 read with clause (8) of section 2 of the Act unless—*

- (a) in case of a power plant –*

- (i) not less than twenty six percent of the ownership is held by the captive user(s), and*

Provided that in case of power plant set up by registered cooperative society, the conditions mentioned under paragraphs at (i) and (ii) above shall be satisfied collectively by the members of the cooperative society:

Provided further that in case of association of persons, the captive user(s) shall hold not less than twenty six percent of the ownership of the plant in aggregate and such captive user(s) shall consume not less than fifty one percent of the electricity generated, determined on an annual basis, in proportion to their shares in ownership of the power plant within a variation not exceeding ten percent;

- (b) in case of a generating station owned by a company formed as special purpose vehicle for such generating station, a unit or units of such generating station identified for captive use and not the entire generating station satisfy (s) the conditions contained in paragraphs (i) and (ii) of sub-clause (a) above including—*

Explanation.—*(1) The electricity required to be consumed by captive users shall be determined with reference to such generating unit or units in aggregate identified for captive use and not with reference to generating station as a whole; and*

(2) *the equity shares to be held by the captive user(s) in the generating station shall not be less than twenty six per cent of the proportionate of the equity of the company related to the generating unit or units identified as the captive generating plant.*

Illustration:

In a generating station with two units of 50 MW each namely Units A and B, one unit of 50 MW namely Unit A may be identified as the Captive Generating Plant. The captive users shall hold not less than thirteen percent of the equity shares in the company (being the twenty six percent proportionate to Unit A of 50 MW) and not less than fifty one percent of the electricity generated in Unit A determined on an annual basis is to be consumed by the captive users.

(2) *It shall be the obligation of the captive users to ensure that the consumption by the Captive Users at the percentages mentioned in sub-clauses (a) and (b) of sub-rule (1) above is maintained and in case the minimum percentage of captive use is not complied with in any year, the entire electricity generated shall be treated as if it is a supply of electricity by a generating company.*

Explanation.—(1) *For the purpose of this rule.—*

- a. “annual basis” shall be determined based on a financial year;*
- b. “captive user” shall mean the end user of the electricity generated in a captive Generating Plant and the term “captive use” shall be construed accordingly;*
- c. “ownership” in relation to a generating station or power plant set up by a company or any other body corporate shall mean the equity share capital with voting rights. In other cases ownership shall mean proprietary interest and control over the generating station or power plant;*
- d. “Special Purpose Vehicle” shall mean a legal entity owning, operating and maintaining a generating station and with no other business or activity to be engaged in by the legal entity.”*

4. General Conditions:

Keeping in view the aforesaid statutory provisions, following general provisions to verify compliance of conditions under Rule 3 of the Electricity Rules, 2005 shall be considered:—

- (i) The captive generators/users shall be required to identify the unit/ units intended for captive consumption at the time of induction of equity itself.
- (ii) If the Captive Generating Plant(s) and some of the captive user(s) are situated outside Himachal Pradesh and the captive status has been determined by an authorized Authority in the state where Captive Generating Plant is situated, the status as determined for Captive Generating Plant shall be adopted in Himachal Pradesh, if in such determination the consumption as certified by Verifying Authority in Himachal Pradesh has been taken:

Provided that if any other consumption is taken, the Verifying Authority in Himachal Pradesh shall re-determine the captive status of users in Himachal Pradesh.

- (iii) The CGP users/owners shall ensure that at any point of time in a financial year not less than twenty six percent of the ownership with voting rights of the generating plant/station or the units identified for captive use, as the case may be,

is held by the captive users and they consume not less than fifty one percent of the electricity generated on annual basis as per this procedure.

- (iv) In case, if there is one captive user, the user shall hold not less than twenty six percent of the equity share capital with voting rights throughout the year and shall consume not less than fifty one percent of the electricity generated on annual basis for captive use as per this procedure.
- (v) In case of two or more captive users or Association of Persons (AoP), the captive users shall hold in aggregate not less than twenty six percent of the equity share capital with voting rights throughout the year and consume not less than fifty one percent of the electricity generated on annual basis for captive use as per this procedure in proportion to their share of the power plant within the variation not exceeding ten percent. The proportionality test shall be calculated for fifty one percent of aggregate generation and not for consumption beyond fifty one percent by captive consumers.
- (vi) If an operating company is non Special Purpose Vehicle (SPV), the captive user shall hold not less than twenty six percent of the equity share capital with voting rights throughout the year and shall consume not less than fifty one percent of the electricity generated on annual basis for captive use as per this procedure.
- (vii) In the case of Cooperative Society, members of society shall collectively satisfy not less than twenty six percent of the ownership and consume not less than fifty one percent of the electricity generated on annual basis for captive use as per this procedure.
- (viii) In the case of partnership firm/limited liability partnership (LLP), ownership shall be with respect to not less than twenty six percent proprietary interest and control over the generating station or power plant and the consumption shall be not less than fifty one percent of the energy generated on annual basis as per this procedure.
- (ix) In the case of CGPs identified for captive use, as under clause (b) of sub- rule (1) of Rule 3 of the Electricity Rules, 2005, in a generating station owned by a Company which is formed as a Special Purpose Vehicle (SPV) and has multiple generating units, the captive users shall hold in aggregate not less than twenty six percent of the proportionate paid up equity share capital with voting rights as per illustration at clause 3(1)(b) of the Electricity Rules, 2005 and consume not less than fifty one percent of energy generated as per this procedure shall be with reference to the generating units identified for captive use and not generating station/company, as a whole.
- (x) The test of proportional consumption in Association of Persons (AoP) and in SPV (where applicable) shall be on fifty one percent of electricity generated, determined on an annual basis, in proportion to the shares in ownership of the power plant within a variation not exceeding ten percent.
- (xi) Verification of ownership and consumption for any change in the captive user in a financial year shall be for each corresponding period of change i.e. by considering the proportionate generation for the corresponding period and the energy consumed by the captive user(s).

- (xii) Weighted average of shareholding to verify twenty six percent ownership annually when there is change in ownership structure, shall be considered subject to the condition that change in extent of shareholding of a captive user is intimated to the distribution licensee and the Verifying Authority within 10 days of such change. Failure to intimate the change within the specified period will render the Verifying Authority to conduct verifications without considering weighted average of shareholding.
- (xiii) The Verifying Authority shall verify minimum equity share capital of twenty six percent before the grant of permission for Open Access from the Captive Generating Plants. In case if the criteria of minimum equity share capital of twenty six percent is not fulfilled at the time of seeking Open Access, the Open Access shall be considered as if the applicant is non-captive user.

- (2) In case of Embedded CGP generators, if such generators are selling power under bilateral transaction to third party consumers or having Energy Purchase Agreement (EPA) with any distribution licensee, it is necessary to access fifty one percent Self Consumption Criteria by obtaining segregated generation and consumption data in the Embedded premises. Hence, separate metering arrangement shall be made for generation and self-consumption within same premises.
- (3) The monthly reading data unit wise at the Generation Transformer EHV level, outgoing feeder level and that of auxiliary consumption shall be submitted by the captive generator or the captive user in hard and soft versions by 10th day of the next month in the Office of the Verifying Authority and the concerned distribution licensee.
